# PROJECT SPOTLIGHT

## Commercial Office at City of Newcastle

Industry : **Commercial Office**
Location : **12 Stewart Ave, Newcastle, NSW**

| **Stakeholders:** | |
|---|---|
| Interior Designer: | INCORP |
| Contractor: | Graphite Projects |
| Electrical Contractor: | Star Group |

### BACKGROUND

Working closely with INCORP, Graphite Projects and STAR Group, mLight successfully delivered striking lighting in the City of Newcastle Office. Designed to be the entrance's centre of attention, our lighting must comply with the custom-designed radiuses and different elevations in each ring to form a contour. Not only that, but the other challenge of this project is to make the lighting align with the office's entire design goal with timber look finishes.

### OUR SOLUTION

As a result, the Swerve 76 was selected to meet the design objective and creates outstanding yet graceful task lighting. Installed with mLight's adjustable suspension wires, the fitting is suspended at different lengths and creates a unique 3D form. Our premium quality timber finishes complemented the remarkable curved of the design. The uncommon design radius is installed with LED boards and integrated drivers for effortless installation without any dark spots. Overall, the lighting beautifully enhanced the commercial office space in the City of Newcastle.
