

PROJECT SPOTLIGHT

ILIM College - Dallas Primary Building

Industry : **Education Sector**

Location : **Dallas, VIC.**

Stakeholders:

Architect:	MSM Architects
Builder:	Newpol Construction
Electrical Engineer:	SDP Consulting

BACKGROUND

Working with MSM Architects, Newpol Construction, and SDP Consulting, our team proudly delivered a lighting solution for ILIM College - Dallas Primary Building. Our clients created collaborative open-plan learning areas, complemented by a creative and functional lighting solution, thus keeping student and staff well-being at the forefront of its design.

OUR SOLUTION

Our premium product, the Kleo X Range, was up to the challenge and with its wide range of finishing options and technical features, it was chosen to deliver a colourful lighting solution for the dedicated IT Room, creating a bright and exciting place to learn. For the corridor ceilings, the Kleo X78 creates a zigzagging illumination effect, delivering a fun and unique pathfinding experience. As a final touch, dimmable options give an ideal lighting solution for the learning setting.

With lighting being an important and essential aspect of a learning environment, mLight strives to engineer and design comfortable lighting solutions that can be used to benefit students on projects such as this. Mlight is proud to have been given the opportunity to supply the ILIM College project.
